On tour with their latest CDs "Shake it up" & "bop" and the greatest hits of rock 'n' roll legends!

When the first chord rings out, it's clear: this is not a nostalgia band, but a formation that lives and breathes rock 'n' roll.

The Shakin' Cadillacs bring back the sound of the 50s and 60s – fresh, rousing, and full of joy. With distinctive vocals, driving rhythms, energetic guitar riffs, and powerful piano, they breathe new life into classics by Elvis Presley, Jerry Lee Lewis, Little Richard, and Chuck Berry, while also presenting their own songs, which are so catchy that you won't be able to get them out of your head.

Warning: earworm alert!

Whether at city festivals, in clubs, or on large open-air stages: The four-person band transforms every performance into a celebration of life and joy – and makes it clear that rock 'n' roll is timeless.

An evening with the Shakin' Cadillacs is more than a concert – it's an attitude towards life.
